Medical Model Assessment For Determining Impairment
Checklist Of Imposed Certification Action

THIS PUBLICATION WAS SUPPORTED BY THE PREVENTIVE HEALTH AND HEALTH SERVICES BLOCK GRANT. ITS CONTENTS ARE SOLELY THE RESPONSIBILITY OF THE AUTHORS AND DO NOT NECESSARILY REPRESENT THE OFFICIAL VIEWS OF CDC.
Section I: FOREWORD

The purpose of the Recommended Guidelines for these Model Disciplinary Orders is to provide a consistent and equitable certification action in cases dealing with disciplinary cause as defined in Health and Safety Code, Division 2.5, Section 1798.200 (e).

The relevant employer shall use this document to develop a disciplinary plan in accordance with the Process for EMT-I and Advanced EMT Disciplinary Action, Chapter 6, Division 9, Title 22 of the California Code of Regulations. The local emergency medical services agency (LEMSA) medical director shall also use this document as a standard in settling disciplinary matters when a respondent wishes to resolve the allegations through a negotiated settlement. However, the settlement may be on any terms the parties determine are appropriate pursuant to Section 11415.60 of the California Administrative Procedure Act.

Should the respondent invoke his/her right to contest the allegations through the California Administrative Procedures Act, the administrative law judge shall use this document as a guide in making his/her recommendations for certification action (if needed) to the medical director of the local EMS agency.

The respondent shall be allowed representation of his/her choice through all processes of the investigation, filing of an accusation, negotiation of a settlement, and administrative hearing pursuant to the California Administrative Procedure Act (Government Code, Title 2, Division 3, Part 1). Any such representation shall be at the respondent’s expense.

Section II: DISCIPLINARY CONSIDERATION FACTORS

The following factors shall be considered for determination of the certification action to be imposed on the respondent. Specifically, whether the certification action warranted is probation, suspension, or revocation:

1. Nature and severity of the act(s), offense(s), or crime(s) under consideration;
2. Actual or potential harm to the public;
3. Actual or potential harm to any patient;
4. Prior disciplinary record;
5. Prior warnings on record or prior remediation;
6. Number and/or variety of current violations;
7. Aggravating evidence;
8. Mitigating evidence;
9. Rehabilitation evidence;
10. In case of a criminal conviction, compliance with terms of the sentence and/or court-ordered probation;
11. Overall criminal record;
12. Time that has elapsed since the act(s) or offense(s) occurred;
13. If applicable, evidence of expungement proceedings pursuant to Penal
14. In determining appropriate certification disciplinary action, the LEMSA medical director may give credit for prior disciplinary action imposed by the respondent’s employer.

Section III: VIOLATIONS and RECOMMENDED DISCIPLINARY ACTIONS
Health and Safety Code Section 1798.200 (c) specifies the offenses for which the LEMSA may take disciplinary action against an EMT-I or an Advanced EMT (AEMT). When filing an accusation, the LEMSA may also cite additional related statutes and regulations.

The recommended discipline should be imposed in the absence of any aggravating or mitigating evidence. The administrative law judge may propose any discipline between the minimum discipline and maximum discipline for a particular violation. When the administrative law judge recommends discipline that is less than the minimum or which exceeds the maximum, a full explanation shall be included as to the nature of the act that warrants unusual consideration. The LEMSA medical director has the final determination as to the discipline to be imposed.

The documentation must substantiate that while employed, there was no evidence of continued alcohol or drug use and that the respondent performed EMT-I or AEMT functions in a safe and competent manner.

- If the respondent is seeking reinstatement of his/her certification, employment for a minimum of six (6) months with documentation from the employer that while employed, there was no evidence of alcohol or drug use.

- A minimum of one (1) year must have elapsed between the time of the second offense and the effective date of the prior order.

Section V: MITIGATING EVIDENCE
The respondent is permitted to present mitigating circumstances at a hearing. The same opportunity is provided in the settlement process.

The following documents are examples of appropriate evidence the respondent may submit to demonstrate his/her rehabilitative efforts and competency:

A. Dated written statements from persons in positions of authority who have on-the-job knowledge of the respondent's current EMT-I or AEMT competence. Each statement should include the period of time and capacity in which the person worked with the respondent and should contain the following sentence at the end: "I declare, under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct to the best of my knowledge." The statement should be signed and dated by the person making the statement;

B. Dated letters from counselors regarding the respondent's participation in a rehabilitation or recovery program, where appropriate. The letters should include a description of the program, the number of sessions that the respondent has attended, the counselor's diagnosis of the respondent's condition, the respondent's prognosis for recovery, the respondent's current state of rehabilitation (or improvement), the counselor's basis for determining improvement, and the credentials of the counselor;

Therefore, the individual cannot use his/her former certification number to obtain continuing education credit/hours or for any other purpose. However, he or she may take continuing education courses so long as an EMT-I or AEMT certification is not used.

CHECKLIST OF IMPOSED DISCIPLINE

The local EMS agency (LEMSA) shall use the “Recommended Guidelines for Disciplinary Orders and Conditions of Probation” in setting disciplinary matters when an EMT-I or AEMT applicant or certificate holder is subject to certification action due to disciplinary cause.

When making a decision regarding certification action pursuant to Section 1798.200 the LEMSA may give credit for discipline imposed by the employer for the same conduct.

The tables on the reverse enumerate the recommended certification actions that may be taken by the LEMSA and the optional terms and conditions of probation as detailed in the guidelines cited above. The left column of the table denotes the recommended action sought by the LEMSA. The right column is used to denote the action imposed by the employer. Use the chart below to determine which optional conditions of probation are applicable to the violations listed in section 1798.200 of the Health and Safety Code.
