The following are general definitions of the status categories found on the prehospital care and BH report forms:

- **Mild status:**
  - Minor injury.
  - Vital signs within normal limits.
  - Minimal patient distress.

- **Moderate status:**
  - Definitive care needed.
  - Vital signs deviate from normal.
  - Symptoms/complaints of medium severity.

- **Acute:**
  - Immediate need for definitive care other than CPR.
  - Vital signs dangerously abnormal.
  - Symptoms/complaints of intense quality.

- **Full Arrest:**
  - Cardiopulmonary arrest, medical or traumatic.
