PROGRAM DESCRIPTION
Care of the critically ill patient during emergencies or following traumatic injury holds special challenges for those who deliver healthcare. This half-day seminar is designed to educate healthcare and prehospital professionals in the current trends of state-of-the-art emergency care management. Topics will include Neuro Emergencies, Child Abuse, Recognition and Intervention, Assessment of the Trauma Patient with Case Reviews and Burn Management Update with Case Review.

TARGET AUDIENCE
Healthcare professionals specializing in emergent care of the critically ill patients: Nurses, Paramedics, and Emergency Medical Technicians.

PROGRAM OBJECTIVES
To increase the participant’s knowledge of comprehensive care of the critically ill patient from initial stabilization to rehabilitation and prevention:

1. Define a Just Culture as it applies to your work environment.
2. List three important findings for trauma triage only found on physical assessment.
3. Explain the importance of epinephrine for the patient experiencing allergic reaction.
4. Discuss the importance of rapid intervention in the athlete who has collapsed.

AGENDA
7:30-7:55  Registration / Breakfast
8:00-8:15  Welcome & Introduction
8:15-9:05  Creating a Just Culture  Vicki Sweet, MSN
9:15-10:05  Trauma Triage – Why?  Dr. Sauri
10:05-10:20  Break/Exhibits
10:30-11:20  Allergic Reaction  Eric McCoy, MD
11:30-12:20  The Risks of Running – A Great Save  Steven Kim, MD
12:30-12:45  Closing/Evaluations

FACULTY
VICKI SWEET, RN MSN  QI Coordinator  Orange County Emergency Medical Services,

Dr. Sauri, M.D.  Trauma Medical Director  Western Medical Center, Santa Ana

ERIC MCCOY, M.D.  Base Hospital Medical Director  University of California at Irvine, Medical Center

STEVEN KIM, M.D.  Medical Director  Riverside Community Hospital  Dr. Kim has arranged for an EZ-IO lab after his lecture

EXHIBITS
